

14500 low-temperature battery cell

Overview

Saft's LS 14500 cell is ideally suited for long-term applications (typically from 5 to 20+ years), featuring low base currents and periodic pulses. 1Typical values relative to cells stored up to one year at + 30°C max. 2Sleeved cell.

14500 low-temperature battery cell

LS 14500

High energy density 3.6 V AA-size bobbin cell
Saft's LS 14500 cell is ideally suited for long-term applications (typically from 5 to 20+ years), featuring low base currents and periodic pulses.

[Lithium Ion Battery Specifications](#)

If the battery is needed to be stored for a long period, battery should be removed from the application and stored in a place where humidity and temperature are low.

[14500 Batteries , Reliable Rechargeable Lithium-Ion Cells](#)

A 14500 battery is a lithium-ion rechargeable cell with the same dimensions as a standard AA battery (14mm x 50mm) but delivers a significantly higher voltage (3.6V or 3.7V nominal).

[Email Contact](#)

[What Makes the 14500 LiFePO4 Battery a Superior Choice?](#)

The 14500 LiFePO4 battery is a lithium iron phosphate cell with a 3.2V nominal voltage, offering high thermal stability, long cycle life (2,000+ charges), and enhanced safety. It's ideal for high ...
