

220v solar water pump inverter

Overview

Which solar water pump inverter is available online?

The 5.5kW three-phase AC 220V solar pump inverter is now available online. This solar pumping inverter integrates advanced MPPT tracking for precise voltage detection and optimal performance. The solar water pumping system supports AC and DC input, with a DC voltage range of 300V~380V and a power factor >0.99.

What is a solar pump inverter?

Solar Pump Inverter Solar pumping system is a series-parallel absorb sunlight radiation energy through solar panels and convert DC into AC power by inverter to drive centrifugal pump, axial flow pump, mixed-flow pump of deep well water pump system.

What is Schneider solar water pump inverter?

Schneider Solar Water Pump Inverter adopts the dynamic technology and motor control technology, and is suitale for AC water pumps with prompt response, high efficiency and stable performance. Support driving single-phase motor and three phase 220V motor. One pump inverter can be connected with multiple, support vector control.

Do I need a solar inverter for a submersible water pump?

Solar inverter is not required in this type of solar pump. 6200 – 38400 liters per day. 5 years warranty for complete solar system and 25 years for solar panel. A 1 HP AC submersible water pump needs AC power/electricity to function. We can't connect it with the solar panels directly as DC electricity cannot be used to power these water pumps.

What is a 4 kW solar pump inverter?

4 kW solar pump inverter with MPPT tracking technology for sale, AC output current 9A at 3-phase, DC voltage range (280V, 750V). Output frequency

 $0\sim400$ (Hz) and power factor >0.99. The pump inverter supports AC and DC input, storage temperature (-20°C, 60°C) and ambient temperature (-10°C, 40°C).

How much power does a solar pump inverter have?

1.5kW solar pump inverter for sale, with AC 3.8A output current at 3-phase, 380V, DC voltage range (280V, 750V), and recommended DC MPPT range (350V, 750V). With IP20 protection class, the solar pump inverter works at $(-10^{\circ}\text{C}, 40^{\circ}\text{C})$. The solar pump inverter supports AC and DC input, the power factor is >0.99, and the humidity is less than 95%RH.

220v solar water pump inverter

22 kW Three Phase Solar Pump Inverter

22 kW solar pump inverter, AC 45A output at 3-phase, adapt maximum power point tracking technology, work at (-10°C, 40°C). Support AC and DC input, ...

Email Contact

Solar Water Pump Inverter (WP)

Solar water pump inverter WP is equipped with the latest maximum power point tracking algorithm to optimize solar power efficiency. It has a high efficiency of ...
