

A factory in the Netherlands producing flexible photovoltaic panels

Overview

Solarge solar panels are produced in our modern 7,000m 2 facility in Weert. Production in this location keeps transport distances to a minimum while supporting the regional economy and providing local jobs. Our aluminium and glass-free production allows for a simplified supply chain.

A factory in the Netherlands producing flexible photovoltaic panels

<u>SolarNL</u>, <u>National Dutch PV research</u>, <u>innovation</u> <u>and industry</u>...

SolarNL helps to create the necessary innovative PV technologies and industrial basis in the Netherlands for decades to come. With this program we are building a strong PV industry that ...
