

# **Are there any pack lithium battery companies in Namibia**

**2MW / 5MWh  
Customizable**

## Overview

---

Does South Africa have a lithium-ion battery manufacturer?

While South Africa does not have any lithium-ion battery cell manufacturers, several companies are involved in battery pack assembly. Demand for all types of batteries is also expected to come from the rollout of renewable energy projects.

Who owns the Namibe Lithium Project?

Tyranna Resources, an Australian-based mineral exploration company, will acquire an 80% interest in the Namibe Lithium Project. The Acquisition is expected to be finalized by July 2022, positioning the company as the majority owner of the project.

Does Namibia have a lithium mine?

Namibia is a leading producer of uranium, diamonds, tin and copper, but so far does not possess an active lithium mine, though several Canadian and Australian juniors are prospecting in the country. Up until 2019, Canada's Desert Lion had been aiming to build Namibia's first major lithium mine some fifty kilometres from the Xinfeng project.
