

Armenia makes photovoltaic solar panels

Overview

As of April 2019 ten 1 MW strong solar stations are installed. Solar and wind stations account for less than 1% of total installed electricity generation capacities. In April 2019 it was announced that German company Das Enteria Solarkraftwerk will build a 2 MW strong solar station near at lake by end of 2020.

Solaron started its solar panel production activities on June 29, 2016, becoming the first Armenian manufacturer of solar panels. The brand "Solaron" is a registered trademark for products manufactured by Profpanel. Our annual production capacity of solar panels is 60 MW.
