

# Armenia solar panels photovoltaic power generation for home use

#### **Overview**

Consumers are allowed to install solar panels with total power of up to 150 kW, and may sell any surplus to electricity distribution company Electric Networks of Armenia (ENA).

is widely available in due to its geographical position and is considered a developing industry. In 2022 less than 2% of was generated by .The use of solar.

As of April 2019 ten 1 MW strong solar stations are installed. Solar and wind stations account for less than 1% of total installed electricity generation capacities. In April 2019 it was.

• • • • • •

According to the, Armenia has an average of about 1720.

In Armenia, , or water-heaters, are produced in standard sizes (1.38-4.12 square meters). Solar water-heaters can be used for space heating, solar.
