

Asia Distributed Photovoltaic Energy Storage Company

Overview

Who is totalenergies ENEOS renewables distributed generation Asia?

Stay in the loop about the latest industry trends, innovations, and sustainable solutions. TotalEnergies ENEOS Renewables Distributed Generation Asia is the global leading solar energy provider. We help provide solar energy for companies, allowing significant savings on electricity bills and sharp reduction in their carbon footprint.

Where can a photovoltaic system be installed?

Ground-mounted photovoltaic (PV) systems can be installed anywhere that has sufficient open space and good sun exposure. Floating photovoltaic (PV) systems utilize large surface areas of water bodies for the deployment of solar energy systems.

What is a ground-mounted photovoltaic system?

We develop, build, own and operate projects while directly partnering with corporate offtakers and enabling them to decarbonize. Ground-mounted photovoltaic (PV) systems can be installed anywhere that has sufficient open space and good sun exposure.

Asia Distributed Photovoltaic Energy Storage Company

Efficient Higher Revenue

- Max. Efficiency 97.2%
- Max. PV Input Voltage 1000V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High-Power Modules

Intelligent Simple O&M

- IP66 Protection Degree: support outdoor installation
- Smart IV Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

Flexible Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverter Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
