

Australia 16-string lithium battery pack

Overview

What types of batteries are used in a battery pack assembly?

Manufacturing battery packs using lithium ion, lithium iron phosphate, nickel cadmium, nickel metal hydride, alkaline and primary lithium batteries. Custom battery pack assembly of Lilon, LiFePO₄, SLA, NiMH, NiCd, lithium primary, alkaline and other chemistries as required. Contact our Head Office today on (02) 9519 1200.

Why should you choose a lithium battery supplier in Australia?

As leading lithium battery suppliers in Australia, we understand how important it is to have energy storage that is both efficient and reliable. We offer lithium batteries at wholesale prices, making us the go-to choice for businesses and individuals in need of long-lasting, high-performance batteries.

Who makes the best battery packs?

All the battery packs feature world's best quality, high capacity Panasonic (Sanyo) lithium ion cells inside. This leading manufacturer has lead the world in this technology for many years being the major OEM for a majority of quality consumer and industrial products.

Where can I buy lithium-ion battery products?

Lithium-Ion Battery Products - Battery Packs are in stock at Digikey. Order Now! Lithium-Ion Battery Products ship same day.

Are lithium batteries better than AGM batteries?

Lithium batteries offer numerous advantages over AGM and other battery types - predominantly greater depth of discharge. While alternative battery types only offer up to 50% depth of discharge, a lithium battery can discharge up to 80% of its usable capacity safely, so they deliver much more power throughout the life of the battery.

What products does a wholesale lithium battery supplier offer?

As a wholesale lithium battery supplier, we offer an array of products to meet all your energy storage needs. Let's see what our products can do for you!

LiFePO4 Battery 12V: The LiFePO4 (Lithium) Battery 12V is ideal for smaller, portable applications such as RVs, caravans, and boats.
