

# Australia power generation solar panels

#### **Overview**

Several incentive programs started in 2008. The Solar Homes and Communities Plan was a rebate provided by the Australian Government of up to A\$8,000 for installing solar panels. Schools were eligible to apply for grants of up to A\$50,000 to install 2 kW solar panels. Over its four years, 2,870 schools installed solar panels. The Australian Government has financial incentives for installing solar systems in the form of
