

# Azerbaijan 5G base station communication

#### **Overview**

Does Azerbaijan have a GSM network?

Azerbaijan has three major national GSM operators: Nar Mobile (by Azerfon), Azercell, and Bakcell. All three operators provide 2G, 3G, and 4G/LTE services, with 5G currently in the testing phase. Registration The registration of a mobile device is mandatory in Azerbaijan.

What are the 4G and 5G bands in Azerbaijan?

When it comes to 4G and 5G bands in Azerbaijan, the following information is available: Azerbaijan's mobile networks use 2 GSM bands, 1 UMTS band, and 1 LTE band. The frequencies supported in Azerbaijan for 4G include B3 (1800) and B8 (900).

Does Azerbaijan have a telecommunications sector?

Azerbaijan has a strong telecommunications sector, with 11 million subscribers and a 107% penetration rate as of 2014. The country has three major mobile operators: Azercell, Bakcell, and Nar (a brand of Azerfon).

Is Bakcell a good mobile operator in Azerbaijan?

Bakcell is the second-largest mobile operator in Azerbaijan, with a 30% user share. It has good coverage in 2G and 3G throughout the country and offers 4G in Baku and Ganja. Its 2G/GSM network operates on 1800 MHz, 3G on 2100 MHz, and 4G/LTE on 900 MHz (Band 8). Nar Mobile/Azerfon.

How to buy a mobile phone in Azerbaijan?

To buy a mobile phone in Azerbaijan, you need to present your passport. To get a mobile contract, you will also need a registration certificate confirming a stay of over 30 days and a valid temporary or permanent residence permit. Do I need to register my mobile phone?

.

How to register a mobile device in Azerbaijan?

Registration The registration of a mobile device is mandatory in Azerbaijan. If you buy a phone from a local shop, the vendor will usually take care of the registration. However, if you are bringing your own device, you will need to register it. This can be done online in advance or at any post office in the country.
