

# BESS price for photovoltaic power plants in the Middle East

#### **Overview**

Are solar energy prices tumbling in the Persian Gulf?

For the third time in a decade, solar energy pricing records are tumbling in the Persian Gulf. As each previous wave of new records was met with incredulity, only for these prices to become the new normal around the world within a few years, it would be unwise to once again dismiss low prices as unrepresentative outliers.

Is the Persian Gulf a leader in photovoltaic deployment & pricing?

Over the last several years, the oil-rich Persian Gulf region has emerged as a global leader in photovoltaic deployment and pricing.

Are photovoltaic modules learning behavior typical of mass-produced goods?

The steady year-on-year declines in CapEx and LCOE suggest learning behavior typical of mass-produced goods. Learning curve analysis has proven effective at projecting the price evolution of photovoltaic module manufacturing in a way that bottom-up analysis has not and is increasingly being extended to system-level analysis.

How does Bess procurement work in the UAE?

In the UAE, Emirates Water and Electricity Company (EWEC) issued in July 2024 a RfP for a 400 MW / 400 MWh standalone BESS project. These offtakers conduct BESS procurement either through the EPC route, where they procure the BESS product, or via the IFP route, where they procure flexibility services.

Can BIPV reduce energy consumption?

cement with BIPV applications could reduce energy consumption by 13.2% to 32.8%. They found that the most efective solutions are installing amo phous thin-film PVs, Low-E glass, and crystalline PVs as exterior wall finishes. Rooftop BIPV systems work best for low-rise buildings,

### BESS price for photovoltaic power plants in the Middle East

## Middle East Solar PV Market Size , Industry Report, 2033

Drivers, Opportunities & Restraints The Middle East solar PV industry is driven by abundant solar irradiation, national diversification strategies, and falling technology costs that have positioned
