

Bulgaria pack battery factory

Overview

Bulgaria-based International Power Supply (IPS) is opening a factory for battery energy storage systems, using proprietary technology. The Exeron X-BESS is one of only six strategic projects in the European Union with a designation under the Net Zero Industry Act. Where is the battery storage system located in Bulgaria?

The newly inaugurated battery storage system is strategically located next to a photovoltaic park within the Balkan Industrial Park in Lovech. This facility is not only the largest in Bulgaria but also the largest operational battery storage system in the European Union.

How many battery containers are there in Bulgaria?

The facility consists of 111 battery containers and was developed by Advance Green Energy. It aims to stabilize the energy grid and ensure price predictability for consumers. The project is part of Bulgaria's broader goal to achieve 10 GWh of battery storage capacity by next year.

Will Bulgaria achieve 10 GWh of battery storage capacity by next year?

The project is part of Bulgaria's broader goal to achieve 10 GWh of battery storage capacity by next year. The newly inaugurated battery storage system is strategically located next to a photovoltaic park within the Balkan Industrial Park in Lovech.

Why should Bulgaria Invest in the Lovech Bess?

As Bulgaria continues to invest in energy storage and renewable technologies, the Lovech BESS stands as a testament to the country's efforts to modernize its energy infrastructure and ensure a sustainable energy future for its citizens.
