

Communications bidding for 5G base stations

Overview

How many 5G base stations does China Mobile Need?

The CBN/China Mobile tender requests bids for 480,397 5G macro base stations in the 700 MHz band which is roughly equivalent to the number of 2.6 GHz base stations already deployed by China Mobile. Based on past big 3 (China Mobile, China Telecom, China Unicom) tender results, Huawei and ZTE are expected to win approximately 85% of the business.

Who are 5G base stations suppliers?

Suppliers of 5G base stations were benefited from the rapid development of 5G technology. Huawei, Ericsson, Nokia, ZTE, and Samsung are among the world's leading suppliers. In 2024, these five vendors control almost 96.12 % of the global market. China has installed around 12 times as many 5G base stations as the United States.

How many 5G base station contracts are there in 2023?

On June 9, 2023, two bidding for 5G base station contracts took place. One for 2.6GHZ/4.9GHZ 5G base stations and one for 700M 5G base stations. Access All Statistics. Starting from You only have access to basic statistics. This statistic is not included in your account. Business Solutions including all features. * Prices do not include sales tax.

What are the prospects of the 5G base station market?

Because of the increased need for high-speed data with low latency, the 5G base station market is likely to develop significantly throughout the forecast period. Furthermore, the growth of the 5G IoT ecosystem and vital communication services is expected to provide lucrative prospects for the 5G base station market to expand.

Who will win China 5G contract?

Based on past big 3 (China Mobile, China Telecom, China Unicom) tender

results, Huawei and ZTE are expected to win approximately 85% of the business. That would leave only 15% for Ericsson or other well known 5G base station vendor, but probably NOT Nokia which was shut out of the last China 5G contract awards.

Which countries dominated the 5G base station market in 2024?

Asia Pacific dominated the global 5G base station market in 2024. Suppliers of 5G base stations were benefited from the rapid development of 5G technology. Huawei, Ericsson, Nokia, ZTE, and Samsung are among the world's leading suppliers. In 2024, these five vendors control almost 96.12 % of the global market.
