

# Costa Rica Energy Storage Container Power Station Enterprise

#### **Overview**

What is the energy matrix in Costa Rica?

The Energy Matrix is the total percentage of all natural resources from which energy is derived and then transformed into electricity to supply households, business and industries. In Costa Rica, ICE is in charge of managing and controlling this matrix through its National Control Center (CENCE) and the National Electric System (SEN).

How many kW can a power plant produce in Costa Rica?

The power generation plants in Costa Rica can jointly produce 3.5 million kW. This is the average composition of the Costa Rican matrix: The Energy Matrix is the total percentage of all natural resources from which energy is derived and then transformed into electricity to supply households, business and industries.

Where to install solar panels in Costa Rica?

Garabito Thermal Plant. Installation of solar panel. Produced by the Direction of Communication, Costa Rican Institute of Electricity (ICE), San José, Costa Rica. Guanacaste Wind Park. Miravalles III Geothermal Plant. Miravalles Solar Park.

Which geothermal plant produces 100% of the energy in Costa Rica?

ICE produces 100% of the geothermal energy in the country. Las Pailas II Geothermal Plant. Biomass energy comes from organic waste; it can be agricultural or domestic. In Costa Rica, the main resource is the sugar cane bagasse generated by the cane refineries in Guanacaste.

How much power does Reventazón provide in Costa Rica?

Reventazón Hydropower Plant in Siquirres with a generation capacity of 305.5 MW; this plant can supply power for 525,000 Costa Rican households. ICE provides power service for 94.4% of households, businesses, and industries in

the country. This numbers are huge if we compare them with the average 14% percent coverage in 1949.

Where is sugarcane biomass located in Costa Rica?

The biomass (from sugarcane waste) is located at the northwest part of Costa Rica and is bounded to sugar refineries. This grid covers 99.4% of the country, the second with the highest penetration in Latin America.
