

Costa Rica Household Solar Photovoltaic Power Generation System Solution

Overview

Can a company sell solar panels in Costa Rica?

Most companies selling solar systems are assembled Asian solar panels with some U.S. made components. In 2016, the Costa Rican government approved a new regulation which allows individuals and companies to produce solar energy (up to 15 percent of the users per district) and sell up to 49 percent of their excess production back to the grid.

Are there private solar companies in Costa Rica?

There are many private companies, most of them members of ACESOLAR (Costa Rican Solar Energy Association), and the CDG (Chamber of Distributed Energy Generation of Costa Rica). They have changed the current legislation opening the market and allowing more solar panels and batteries to be installed.

Who is a good solar installer in Costa Rica?

Lester provides excellent service and value for solar projects in Costa Rica. We were so happy that Neil came out and fixed our system that had just been installed by another installer. We fought for months with that installer to come out to fix their system. Finally we called Sunnyside Solar Solutions and talked to Neil.

Does Costa Rica produce solar energy?

As mentioned before, there is no significant local production of solar energy products in Costa Rica, but it has increased during the last year. The Costa Rican energy generation matrix for 2022 is composed of 74 percent Hydro, 12.8 percent Geothermal, 12.5 percent Wind, Biomass 0.54 percent. and 0.07 percent Solar.

Who is the target market for solar energy in Costa Rica?

According to the Costa Rican Institute of Electricity (ICE) and the Costa Rican

National Power and Light Company (CNFL), both government entities, the target market for solar energy in Costa Rica, remains to be households or companies that consume between 200kw/h and 3,000kw/h. ICE and CNFL have been installing photovoltaic systems.

Does Costa Rica export solar panels?

The U.S. continues to grow slightly every year, even in a depressed market that slowed after new the VAT was implemented. Exports from Costa Rica are also of imported products from other countries. Most companies selling solar systems are assembled Asian solar panels with some U.S. made components.
