

Cote d Ivoire Nenggao Photovoltaic Inverter

Overview

How many solar power plants will emerge in Côte d'Ivoire?

Powers of Africa Côte d'Ivoire. 12 photovoltaic solar power plants will emerge between 2025 and 2026. The Ivorian Minister of Mines, Petroleum, and Energy, Mamadou Sangafowa Coulibaly, announced the construction of 12 new photovoltaic solar power plants across the country between 2025 and 2026.

Where is the first solar power plant in Côte d'Ivoire?

In Boundiali in the north of Côte d'Ivoire, the country's first solar power plant has now been inaugurated by Ivorian Prime Minister Beugré Mambé and German Parliamentary State Secretary Bärbel Kofler. The power plant has already been providing up to 37 megawatts of power since June 2023.

Why is Côte d'Ivoire launching a solar power plant?

The new solar power plant in Côte d'Ivoire is helping to achieve the goals of German development cooperation in the expansion of renewable energies. "The aim is to promote a climate-friendly electricity network in West Africa," explains Winkler-Tomety.

How will a new solar power plant benefit Côte d'Ivoire?

The clean electricity generated in this way can supply 35,000 households, benefiting around 150,000 people. The new plant will save 35,000 tonnes of greenhouse gas emissions every year - an important contribution to climate protection. The solar power plant is regarded as a model project for the expansion of solar energy in Côte d'Ivoire.

Why did KfW build a solar power plant in Côte d'Ivoire?

"We also endeavoured to create employment for the local population," emphasises KfW Project Manager Clara Winkler-Tomety. During the construction phase, 75% of the workers came from the region. The new solar

power plant in Côte d'Ivoire is helping to achieve the goals of German development cooperation in the expansion of renewable energies.

How will the Ivory Coast improve its energy mix?

Work began on the second phase of the project at the same time, which will take the site's capacity to 80 MW. Construction will also soon begin on a 52 MW plant in the village of Sokhoro. The Ivory Coast aims to increase the share of renewables in its energy mix to 45% by 2030.
