

Cyprus has several 5G base stations with a capacity of 372KWh

Overview

Does Cyprus have a 5G network?

02 MAY 2022 - 18:50 Source: Announcements Cyta has announced the completion of the pan-Cypriot 5G mobile network that offers state-of-the-art telecommunications services throughout the country, even in its most remote areas. This makes Cyprus the 1st country in the EU with 100% population coverage.

Which country has 100% 5G coverage?

Cyprus is the 1st country in the EU with 100% 5G coverage The village of Sykopetra was the last village to be connected by Cyta to the 5G network 02 MAY 2022 - 18:50 Source: Announcements.

Does Cyta have the fastest 5G network in Europe?

The president of Cyta Mr. Michalis Ioannidis, referring to the completion of the fastest 5G network in Europe, with 100% population coverage throughout the island, said that "this is an achievement that no other country has accomplished so far. For us at Cyta, it is important that all Cypriots avail of the digital transition".

Why should Cyprus be a digital hub?

Deputy Minister Kyriakos Kokkinos underlined that "the immediate availability of networks and services in every corner of Cyprus contributes to the enhancement of the digital maturity of the country and its citizens and consequently to protecting its economic resilience."
