

Energy Storage Enterprise Investment and Cooperation Plan

Overview

What is the Energy Storage Partnership (ESP)?

The Energy Storage Partnership (ESP) is a collaboration between the World Bank Group and 29 organizations. They work together to help develop energy storage solutions tailored to the needs of developing countries. Energy transitions are underway in many countries with a significant increase in the use of wind and solar power.

What is the energy storage strategy & roadmap (SRM)?

WASHINGTON, D.C. – The U.S. Department of Energy (DOE) today released its draft Energy Storage Strategy and Roadmap (SRM), a plan that provides strategic direction and identifies key opportunities to optimize DOE’s investment in future planning of energy storage research, development, demonstration, and deployment projects.

Does the energy storage strategic plan address new policy actions?

This SRM does not address new policy actions, nor does it specify budgets and resources for future activities. This Energy Storage SRM responds to the Energy Storage Strategic Plan periodic update requirement of the Better Energy Storage Technology (BEST) section of the Energy Policy Act of 2020 (42 U.S.C. § 17232 (b) (5)).

Why is Doe investing in energy storage?

The underlying motivation for DOE’s strategic investment in energy storage is to ensure that the American people will have access to energy storage innovations that enable resilient, flexible, affordable, and secure energy systems and supply, for everyone, everywhere.

What is Doe's strategic investment in energy storage?

DOE’s strategic investment in energy storage aims to ensure that all Americans have access to energy storage innovations to enable resilient,

reliable, secure, and affordable electricity systems and supplies.

What is the energy storage Grand Challenge (ESGC)?

In January 2020, DOE launched the Energy Storage Grand Challenge (ESGC) to facilitate a department-wide strategy to accelerate the development, commercialization, and use of next-generation energy storage technologies and sustain American global leadership in energy storage.

Energy Storage Enterprise Investment and Cooperation Plan

[Uzbekistan to Build New Solar Plant and First Battery Energy Storage](#)

The World Bank Group, Abu Dhabi Future Energy Company PJSC, and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt solar ...

[Email Contact](#)

[China's role in scaling up energy storage investments](#)

The existing literature on energy storage has primarily focused on technological innovation, leaving a research gap to be filled using a policy lens. Through qualitative analysis, ...
