

Energy storage container combiner and distribution cabinet

LFP12V100

Overview

How many 373kwh cabinets can be installed together?

Multiple 373kWh cabinets can be installed together creating up to 4472kWh energy storage blocks. Designed for 373kWh's to 100MWh+ systems. Each 373kW liquid cooled outdoor cabinet solution is pre-engineered and manufactured to be ready to install.

Can a 373kwh rack system be paired with a 1500V PCs inverter?

373kWh rack systems can be paired with 1500V PCS inverters to complete fully functioning battery energy storage systems. The battery pack, string and cabinets are certified by TUV to align with IEC/UL standards of UL 9540A, UL 1973, IEC 62619 etc.

Can outdoor liquid cooled cabinets be paired together?

Outdoor liquid cooled cabinets can be paired together utilizing a high voltage/current battery combiner box. Outdoor liquid cooled cabinet is manufactured to be a install ready and cost effective part of the total on-grid, hybrid, off-grid commercial/industrial or utility scale battery energy storage system. BESS string setup examples are:

Energy storage container combiner and distribution cabinet

[Fluence , A Siemens and AES Company](#)

Fluence offers energy storage products that are optimized for common customer applications but can be configured for specific use cases and requirements. All Fluence products can be ...
