

Energy storage power station under construction in Bosnia and Herzegovina

Overview

Which is the largest solar power plant in Bosnia & Herzegovina?

20 May 2025 - Aurora Solar started building a 125 MW solar power plant near Stolac. It is set to become the largest in Bosnia and Herzegovina. 15 May 2025 - The State Electricity Regulatory Commission is drafting a decision on BESS, Mirza Kušljugić said at Belgrade Energy Forum 2025.

Does Bosnia and Herzegovina provide security of electricity supply statements?

Bosnia and Herzegovina is not providing the Security of Electricity Supply Statements to the Secretariat despite its obligation under Article 29 of the Treaty.

Should Bosnia and Herzegovina use more energy?

Bosnia and Herzegovina could do a lot more to use energy efficiently. Electricity prices are kept artificially low and there is therefore limited incentive to make savings. The country is almost four times as energy-intensive as the average in EU countries and has the highest energy intensity in the Western Balkans.

How many companies operate the gas Trans-mission system in Bosnia and Herzegovina?

Three companies in Bosnia Herzegovina operate the gas trans-mission system. In the Federation of Bosnia and Herzegovina, one company operates the transmission network as an exclu-sive and sole task in line with the Decree on Organisation and Regulation of the Gas Sector, but there is no legal basis for unbundling under the Third Energy Package.

Should Bosnia and Herzegovina adopt a long-term building renovation strategy?

Bosnia and Herzegovina should adopt a long-term building renovation

strategy, establish an energy efficiency obligation scheme, and complete heating and cooling assessments. Regulation (EU) 2019/941 should be transposed and the risk-preparedness plan developed. Commission Regulation (EU) 2017/2196 should be fully transposed.

Does Montenegro need a transboundary EIA for the Buk Bijela hydropower project?

The cross-border dialogue between Montenegro and Bosnia and Herzegovina concerning transboundary impacts of the Buk Bijela hydropower project, facilitated by the Energy Community Secretariat, resulted in an agreed roadmap and the requirement for a new transboundary EIA, with a particular emphasis on biodiversity impacts.
