

# Energy storage power station under construction in the Bahamas

#### **Overview**

The new plants—adjacent to Bahamas Power & Light's Wilson City Power Plant on Abaco and Hatchet Bay Power Station on Eleuthera—will integrate liquefied natural gas (LNG), solar photovoltaic systems, and battery energy storage to create resilient micro-grid generation. Will a 5 MW power plant be operational in Grand Bahama?

Furthermore, energizing the USD105 million, Wilson City Power Plant on Grand Bahama, which hasn't been operational since construction began in 2012. A 5-MW or greater capacity coal-fired power plant such as Wilson needs a sufficient load in order to operate, Burgess said in an interview. The Wilson City Power Plant comes in at 48 MW.

Who contributed money to a new power plant in Grand Bahama?

Grand Bahama and Abaco, Grand Bahama in particular, contributed funds, as well, according to Burgess. New distribution lines stretch 30 miles (48.3 kilometers) to generation sites, such as the Wilson City Power Plant on Grand Bahama, Burgess continued.

How will Wärtsilä's gems Digital Energy Platform help the Bahamas?

The combination of flexible power generation and energy storage utilising Wärtsilä's unique GEMS Digital Energy Platform will support the Government of the Bahamas' plans to increase its share of renewable sources, notably solar, by 30 percent by 2030. Renewables hold the key to decarbonising the energy sector.
