

# **Explosion-proof mobile outdoor power supply**

## Overview

---

What is an explosion-proof uninterruptible power supply system (UPS)?

Orga helps make daily operations easier, with Orga's Explosion-proof (EX) Uninterruptible Power Supply system (UPS). What does an Explosion-proof Uninterruptible Power Supply system do?

The batteries of our EX-certified UPS (Uninterruptible Power Supply) continue to supply power when the normal power supply is cut off.

What is a CEAG explosion-protected power distribution?

CEAG explosion-protected power distributions fulfil these high mechanical explosion protection requirements by means of a high-strength protective framework made of stainless steel (1.4301) and enclosures that have been specially developed for this purpose.

Why do you need a reliable power supply?

Running and maintaining a safe and reliable operation on remote and unmanned locations is a complex task, especially in hazardous areas. You need a reliable power supply to keep critical systems up and running in all situations. Orga helps make daily operations easier, with Orga's Explosion-proof (EX) Uninterruptible Power Supply system (UPS).

How is the ex Ups built?

The EX UPS is built in accordance with the system sizing calculation and based on client requirements. Each system is built up in 1 x 100%, 2 x 100%, 2 x 50% or N+1 configuration and customised to the client's preferred setup. Each system is built up from one or more EX battery boxes and one or more EX battery chargers for even more reliability.

## Explosion-proof mobile outdoor power supply
