

Georgia s latest base station wind power supply

Overview

Does Georgia Power have a Bess project?

Georgia Power continues to work with the Georgia PSC to integrate BESS technology across the state. BESS projects support the overall reliability and resilience of the electric system, while also enhancing the value of intermittent renewable generation resources such as solar.

How many MW does Georgia Power have?

Georgia Power announced today that it has requested certification [link to filing] from the Georgia Public Service Commission (PSC) of new resources totaling approximately 9,900-megawatts (MW) to meet the energy needs of a growing Georgia.

Is there a wind training program in Georgia?

Career training and projects at schools in Georgia. There are no wind training programs listed for Georgia. There are no Wind for Schools projects in Georgia. 1 local wind energy ordinance View current Georgia renewable energy incentives on the DSIRE website. There are no Renewable Portfolio Standards for Georgia.

Does Georgia Power need supplemental resources?

In addition, with consideration of Georgia Power's load forecast in the 2025 IRP approved by the Georgia PSC earlier this month, the company this week filed a separate request to certify supplemental resources [link to filing] necessary to reliably and economically meet nearer term projected energy needs not filled by the All-Source RFP.

What projects have been submitted to the Georgia PSC?

Projects submitted to the Georgia PSC include: Bowen (Bartow County): Two CCs with a combined capacity of 1,482 MW. Plant Bowen is the site of a coal-fired power plant currently capable of producing 3,376 MW of electricity.

McIntosh (Effingham County): One CC with a capacity of 757 MW.

How many MW does the Georgia PSC need?

The majority of resources - approximately 8,000 MW - submitted to the Georgia PSC this week were chosen from bids submitted in an "all-source" request for proposals (RFP), the need for which was approved in the 2022 Integrated Resource Plan (IRP) Final Order.
