

Georgian lithium energy storage power supply manufacturer

Overview

Does stryten manufacture lithium batteries?

Stryten has a suite of domestically manufactured battery solutions that use advanced lead, lithium and vanadium redox flow battery technology. Stryten recently opened a lithium battery assembly plant in Georgia that supports military and industrial battery needs with its lithium module technology.

Where will Hyundai Motor Group build a lithium-ion EV battery plant?

Korea-based Hyundai Motor Group will work with LG Energy Solution (LGES) to build a \$4.3 billion facility in Bryan County, near Savannah, Georgia, near where Hyundai Motor Group Metaplant America is currently being built. Hyundai and LGES to build lithium-ion EV battery plant. Image used courtesy of Hyundai Motor Group.

How many battery plants does Iges have?

Including the new Hyundai joint venture, LGES has seven battery plants currently operating or being constructed in the U.S. In the Hyundai and LGES joint venture in Georgia, each company will hold a 50 percent stake in the cell production facility.

When will lithium-ion battery production start?

Battery production at the joint venture plant is expected to begin at the end of 2025, with an annual production capacity of 30 gigawatt-hours (GWh) to support the production of 300,000 electric vehicles. Korea-based LG Energy Solution is the second largest supplier of lithium-ion batteries to the auto industry.
