

German outdoor power equipment manufacturer

Overview

Stihl is a German manufacturer of power tools, chainsaws, and other outdoor power equipment. It is allegedly the world's best-selling brand of chainsaw, and the only one to make its own saw chains and guide bars. The company has over 17,000 employees and also manufactures Viking tools. Is Germany a good country to buy a lawn mower?

German engineering is widely recognized as some of the best in the world. From cars to tools, Germany has made a great reputation for itself. This is certainly the case with power tools and German lawn mower brands as well. However, some of these brands might not be as well known to people outside of Germany.

Are German lawn mowers made in Germany?

Of the most popular German lawn mower brands, there are mainly two that have really committed themselves to manufacturing in Germany: Gardena and Metabo. There are many reasons why companies do this, but it tends to make them stand out from the rest. Founded in Ulm, Germany in 1961, Gardena has remained there ever since.

What are the most popular German tools brands?

A huge name in the world of tools, Bosch is another of the most widely recognized German brands. One of the reasons for this is that they do much more than just manufacture tools. Focused on engineering along with mechanics when founded in 1886, Bosch accomplished a ton in the world of technology.

What factors affect the power tool industry in Germany?

When exploring the power tool industry in Germany, several key considerations come into play. The German market is characterized by strict regulations, particularly concerning safety and environmental standards.

Is Bosch Power Tools a sustainable company?

Bosch Power Tools is actively enhancing its product portfolio to better serve North American users and is committed to sustainability by aiming to reduce emissions throughout its product lifecycle. Bosch Powertools Company | Bosch Power Tools.

When will battery power become the main power source for outdoor power equipment?

Our aim is that, within 5 years, battery power becomes the principal power source for outdoor power equipment. Here at EGO, we pride ourselves on manufacturing products that not only have petrol-matching power, but are reliable and robust too.
