

Grid-connected inverter market demand

Overview

The on grid PV inverter market is projected to grow from USD 32.2 billion in 2025 to USD 76.9 billion by 2035, at a CAGR of 9.1%. String will dominate with a 44.6% market share, while single phase will lead the phase segment with a 51.2% share.

Grid-connected inverter market demand

On-Grid Solar Inverter Market Analysis

Market players are focusing on technology innovation, product differentiation, and market expansion to meet the evolving needs of customers and capitalize on growing demand for on ...
