

Home lithium battery energy storage safety

Overview

As long as you avoid storing them next to heat sources, make sure they can't easily get damaged or accessed by a child or pet, and other common sense practices, lithium ion batteries are totally safe to store in your home.

Home lithium battery energy storage safety

EPA issues battery storage safety guidelines

The U.S. Environmental Protection Agency (EPA) issued new battery energy storage system (BESS) safety guidelines this week, and while there's not much 'new' here, the ...
