

How long is the single energy storage project expected to be completed

Overview

What is the biggest solar-plus-storage project in the country?

"The 1,000-megawatt (MW) Bellefield 1 project in Kern County, California, includes 500 MW of solar and 500 MW of four-hour battery storage, all under a 15-year contract with Amazon. When the full 2,000 MW Bellefield project is done, it will be the biggest solar-plus-storage installation in the country."

What is the largest solar & storage facility in the US?

AES just completed the first half of Bellefield, which will become the largest solar + storage facility in the US. The 1,000-megawatt (MW) Bellefield 1 project in Kern County, California, includes 500 MW of solar and 500 MW of four-hour battery storage, all under a 15-year contract with Amazon.

Will Bellefield be the biggest solar-plus-storage installation in the country?

When the full 2,000 MW Bellefield project is done, it will be the biggest solarplus-storage installation in the country. "Completing the first 1,000 MW of Bellefield demonstrates how rapidly solar and storage can be deployed to meet the growing energy demand of data centers," said AES CEO Andrés Gluski.

When did Recurrent Energy start developing Crimson storage?

Recurrent Energy began developing Crimson Storage and our larger energy storage pipeline in 2015 when no large-scale storage projects yet existed. Last year, we started bringing these projects to fruition also thanks to our CSI Energy Storage team.

Does California have energy storage contracts?

Sited on public lands in Riverside County, California, the project holds two longterm energy storage contracts with California's largest utilities, Southern California Edison and Pacific Gas and Electric Company. Both contracts are part of reliability procurements directed by the California Public Utilities

Will BLM approve energy storage project?

In May 2021, the Bureau of Land Management (BLM) granted final approval of the project, making it the first standalone energy storage project to receive approval to site on BLM lands under the Biden-Harris Administration.
