

# How much does curtain wall photovoltaic cost in Kazakhstan

#### **Overview**

Is a photovoltaic facade worth it?

The answer is zero. In contrast, a photovoltaic facade will not only insulate the building, but generate power for over 30 years, helping our customers decrease their monthly electricity bills, and therefore, paying for itself. We work hand in hand with architects and design professionals creating their designs with photovoltaic glass.

What is a photovoltaic facade?

Thanks to Pure Solar, Photovoltaic Facade buildings become a real power plant, keeping their design appealing, aesthetic, efficient and functional. PV facades are becoming a popular application for photovoltaic glass in buildings. They allow for owners to generate power from areas of the building they had never thought of.

How does PV glass for PV facade work?

PV Glass for PV facade comes frameless, and it can be assembled into any commercial system. From a mechanical perspective, the glazing contractor will take care of its installation, and then the electrical contractor will interconnect the units. Different visible light transmittance levels are also an option.
