

How to place the battery swap cabinet at the site

Overview

How do I put the batteries in the battery swapping cabinet?

Here is the complete guide on how to put the batteries in the battery swapping cabinet with a hard connection, step by step: Use the Tycorun Energy App to scan the qr code. Then you will hear the voice announcement "Please put the battery in the designated slots." The battery is returned successfully.

How to install a battery?

Here are the proper battery installation steps: a.You have to identify the terminals as plus and minus signs. b.Then attach the red cable to the positive terminal. c. Lastly, attach the black cable to the negative terminal. Here are the bullets showing the importance of battery connection correctly.

How do you connect a battery to a spring?

The negative end of the battery goes toward the spring. In a series configuration, they go in the same direction. But in parallel connection, all positives connect and all negatives together. When jumping a battery connect the positive terminal first. You have to connect the positive terminal first when using a battery charger.
