

Huawei Bahrain Energy Storage Project Company

Overview

Does Huawei have a battery energy storage contract?

Huawei Digital Power announced in a statement that it has signed a battery energy storage solution contract related to the Red Sea utilities contract. The contract also includes the 400 MW PV and along with the 1300 MWh battery energy storage solution (BESS), which is currently the world's largest energy storage project.

What is Huawei's Red Sea energy storage project?

This project also represents the largest energy storage project since Huawei officially launched the Smart String Energy Storage Solution for utility-scale PV power plants in June 2021. Sitting on the Saudi Arabian Red Sea coast, the Red Sea project is one of the key projects as part of the Saudi Vision 2030.

What makes Huawei a great energy storage company?

Huawei has more than 10 years of experience developing and researching energy storage systems, and this has been applied throughout a global installed base of more than 8 GWh.

Is Huawei a reliable partner?

Huawei is a reliable partner for customers all over the world, providing long-term and efficient support in terms of delivery and service. According to the contract, Huawei's FusionSolar Smart PV + Storage solution will be delivered from June 2022, and the whole project is expected to be completed on March 2023.
