

## Huawei Korea Energy Storage Planning Project

#### **Overview**

The Ulsan Substation Energy Storage System is a 32,000kW lithium-ion battery energy storage project located in Namgu, Ulsan, South Korea. The rated storage capacity of the project is 8,000kWh. The electro-chemical battery storage project uses lithium-ion battery storage technology. The project was.

The Gyeongsan Substation – Battery Energy Storage System is a 48,000kW lithium-ion battery energy storage project located in Jillyang-eup, North.

The Nongong Substation Energy Storage System is a 36,000kW lithium-ion battery energy storage project located in Dalsung, Daegu, South Korea. The rated.

The Uiryeong Substation – BESS is a 24,000kW lithium-ion battery energy storage project located in Daeui-Myoen, Uiryeong-Gun, South Gyeongsang, South.

Huawei's energy storage project is advancing significantly, with distinct milestones achieved in 2023, expanding its global influence in renewable energy solutions, increasing partnerships with local utilities, and enhancing technological innovations to improve efficiency and reliability.
