

Huawei Laos Wind Photovoltaic Energy Storage Project

Overview

What is the largest wind power project in Laos?

The project, a 1,200 MW wind power project in the Lako Focus Area, Sepon District, Savannakhet Province, marks the largest wind power development in Laos to date and is expected to generate enough electricity to power both domestic needs and contribute to the region's energy security.

Why did Lao sign a project development agreement with Savan Vayu?

In a major boost for renewable energy in Southeast Asia, the Lao government signed a Project Development Agreement (PDA) with Savan Vayu Renewable Energy Co., Ltd. (SVARE) in Vientiane Capital on 14 February.

Does Huawei use string inverter technology?

Since 2013, Huawei has chosen string inverter technology. In 2020, Huawei launched the industry's first string ESS, which uses controllable power electronics technologies to resolve the inconsistency and uncertainty of lithium batteries.
