

Huawei Pure Energy Storage Power Station Project

Overview

The project, considered the world's largest solar-storage project, will install 3.5GW of solar photovoltaic capacity and a 4.5GWh battery storage system. The project has commenced in November 2024.

Huawei Pure Energy Storage Power Station Project

How is Huawei's energy storage project progressing?

Huawei's energy storage project is advancing significantly, with distinct milestones achieved in 2023, expanding its global influence in renewable energy solutions, increasing ...
