

Huawei South America Energy Storage Mobile Power Bank

Overview

What is a Huawei power bank?

This power bank is as versatile as it is reliable, with SCP, UFCS, and PD fast charging capabilities, support for HarmonyOS, iOS, and Android devices 6, and up to 25 W of input/output for two-way fast charging. It can even wirelessly charge HUAWEI devices and select non-HUAWEI devices.

Does Huawei power bank support wireless charging?

The magnetic feature is where it shines with Huawei phones that support wireless charging and use an official magnetic adsorption case. This allows for a hassle-free, cable-free charging experience by simply attaching your phone to the power bank. Huawei's power bank offers convenience with a foldable stand for hands-free charging.

What is Huawei Supercharge all-in-one magnetic power bank?

Huawei introduces the Huawei SuperCharge All-in-One Magnetic Power Bank, offering convenient on-the-go charging for Huawei phones. The slim, portable power bank, weighing 141g and 11.26mm thick, offers a 5000mAh capacity for phone charging.

What is the rated power of Huawei Supercharge 10000 mAh power bank?

The rated power of HUAWEI SuperCharge 10000 mAh Power Bank does not exceed 100 Wh, so is allowed on flights without the approval of the air carrier. Please refer to the security information of each air carrier. 10000 mAh is the typical value of cell capacity. Data from Huawei labs. Actual data may vary depending on usage conditions.

How many devices can you charge with a power bank?

You can charge all your devices, including mobile phone, tablet, earbuds, and smartwatch. It supports 20 W PD Quick Charge and 18 W QC Quick Charge. The versatile power bank is compatible with multiple devices, so only one is

enough for travel. Designed using premium materials for a smooth, textured finish to create two different senses of touch.

How do I charge my phone with a power bank?

For certain small-sized devices that support wireless charging, you'll need to press the button on the power bank to begin charging. When the power bank serves as a wireless charger, it will begin charging once the phone is fully charged. The power bank is compatible with devices supporting SCP, UFCS, and PD charging protocols.
