

# Huawei charging pile energy storage business model

#### **Overview**

How many Huawei Supercharge charging piles will be installed in China?

(Yicai) Dec. 8 -- Huawei Technologies will join hands with its clients and business partners to install over 100,000 Huawei SuperCharge charging piles along major roads in China next year. The project will touch more than 340 Chinese cities, Hou Jinlong, president of Huawei Digital Power Technology, said during an industry forum yesterday.

Are charging piles the future of smart energy?

Domestically, the charging pile industry is evolving from a simple energy supply facility into a critical node in the smart energy ecosystem. With the maturation of technologies like V2G and distributed energy, charging piles will become a key component of future smart grids.

Is Huawei forming a partnership with teld?

Shanghai (Gasgoo)- Huawei forged on May 20 a partnership with TELD, a Chinese leading charging pile operator, as both parties seek to jointly advance the construction of charging pile network and the smart charging business, according to a posting on TELD's WeChat account.

How many charging piles are there in China?

China had almost eight million charging piles as of Oct. 31, up 69 percent from a year ago, per statistics from the China Electric Vehicle Charging Infrastructure Promotion Alliance. The figure includes more than 2.5 million public charging piles, rising by more than half.

Is Huawei launching a DC fast-charging module for EVs?

(HiCharger, photo source: Huawei) Huawei, who has long claimed to be an "increment" parts supplier to ICVs (intelligent-connected vehicles), has also tapped the EV charging field by launching the DC fast-charging module dubbed "HiCharger" in late April.

How many Chinese automakers are compatible with Huawei digital power?

So far the platform has linked up with over 10 Chinese automakers to be compatible with more than 50 vehicle models. Huawei Digital Power partnered with GCL Energy Technology on building a network of liquid-cooled SuperCharge stations this year, per meeting minutes that the green energy provider released in October.
