

# Huijue Energy Storage Charging Station Subsidy

## Overview

---

What are Huijue group's energy storage solutions?

Huijue Group's energy storage solutions (30 kWh to 30 MWh) cover cost management, backup power, and microgrids. To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an innovative base station energy solution.

What is Huijue off-grid solution?

Huijue Off-Grid Solution integrates photovoltaic, energy storage, and off-grid systems for scalable energy self-sufficiency. The Huijue Group Off-Grid Solution comprises three main components: photovoltaic systems, energy storage systems, and off-grid systems, enabling energy self-sufficiency.

What is a Huijue system?

Ranging from 5kWh to 20kWh, it caters to households of varying sizes. It reduces electricity bills and serves as emergency backup power, providing a seamless, intelligent, and one-stop energy solution. Compact and reliable Huijue systems provide energy independence and efficiency for modern homes.

What is Huijue group's new generation of smart energy solutions?

Huijue Group's new generation of smart energy solutions integrate green energy systems, advanced intelligent control systems and services to achieve energy saving at the sites, reduce energy consumption, and reduce carbon emissions.

Where are Huijue network products exported?

Huijue Network's products are exported to Europe, North America, Southeast Asia and other countries and regions. Since our founding in 2002, we've been committed to becoming a leader in the network link industry.
