

Hungary solar energy storage system manufacturer

Overview

What is the largest solar project in Hungary?

The Hungarian Electricity Works (MVM) energy group constructed it, funding 65% of it and utilizing EU subsidies to cover the remainder. Like Kapuvár Solar Park, Paks Solar Park took the title of the largest solar project in Hungary during its establishment in 2019. Annually it is capable of providing electricity for roughly 8,500 homes.

Who will build Hungary's largest energy storage facility in Szolnok?

Forest Vill Ltd. will build Hungary's largest energy storage facility in Szolnok on behalf of MAVIR Ltd. The Budaörs-based company will design and fully implement a 20 megawatt energy storage facility with a capacity of 60 megawatt-hours as part of the HUF 8.5 billion project.

How much solar power does Hungary have?

State secretary for energy transition of the Energy Ministry Viktor Horvath noted that Hungary had built more than 8,000MW of solar capacity in the past 5-6 years and one-quarter of the electricity generated in the country came from renewable sources last year.

Will Hungary build a solar factory in Northern Hungary?

There are plans to open a factory dedicated to building solar panels in Northern Hungary, representing an investment of 18.9 billion forints (nearly 6,000,000 USD). This new rapid growth can be attributed to Hungary choosing to follow in the footsteps of the European Union, which hopes to have 30+ percent renewable energy by 2030.

When did forest-vill start construction of Hungary's largest electricity storage system?

At the end of 2023, Forest-Vill Ltd. won the public tender of MAVIR Ltd. for the design and full construction of Hungary's largest electricity storage system in

Szolnok. After the contract was signed in February 2024, the company started the preparation phase of the works.

How long will the Hungarian energy project take?

After the contract was signed in February 2024, the company started the preparation phase of the works. The project will take 15 months to complete, with a delivery to be expected in the first half of 2025. The development is an important milestone not only for the company, but also for the entire Hungarian energy sector.
