

Iceland s new 3 billion energy storage power station

Overview

Ever wondered how Iceland powers its geothermal spas and northern lights data centers during windless winter nights?

Meet the Qingxi Pumped Storage Power Station – the unsung hero making Iceland's 99.9% renewable energy grid possible.

Iceland s new 3 billion energy storage power station

China emerging as energy storage powerhouse

China's power storage capacity is on the cusp of growth, fueled by rapid advances in the renewable energy industry, innovative technologies and ambitious government policies
