

Inverter battery mix and match

Overview

Pick the wrong match and the lights may flicker, or worse, the system could shut down on a hot night. Most hybrid solar inverters handle: Lead-acid and AGM blocks. Gel batteries. Lithium-ion packs. Some new chemistries if the maker lists them. DIY packs only when BMS settings match.

Inverter battery mix and match

Mixing old and new batteries

Hi Guys, Just joined today and have a simple question. My system. 2x 200w panels in series. 2x150 amp batteries in series 80 amp charge controller 24v 3kva inverter. I ...
