

Iran Mobile Energy Storage Project

Overview

Rumor has it Iran's Energy Ministry is testing drone-delivered batteries for remote villages. Meanwhile, a pilot project in Kerman uses refurbished camel caravans (yes, camels) to transport small-scale storage units to off-grid areas. Because sometimes, the future looks suspiciously like the past.

Iran Mobile Energy Storage Project

Country Analysis Brief: Iran

Iran's economy consumed an estimated 13.5 quadrillion British thermal units (quads) of primary energy in 2022 (Table 1), making it the highest energy consumer in the Middle East.
