

Italian lithium battery station cabinet manufacturer

Overview

What is Italy's largest battery cell factory?

Italvolt's 45GWh battery plant will be the Italy's largest, independent, battery cell factory. The battery cell factory will focus on creating new opportunities for re-skilling and upskilling workers from Italy's automotive industry.

Is Italy a good place to start a battery industry?

Today, Italy holds significant opportunity for the modern battery industry, with its strategic location and highly skilled workforce. Italy has a rich industrial heritage, especially as a hub of Europe's automotive industry, offering access to a large, skilled workforce.

What kind of batteries does italvolt use?

Its product line includes a variety of specifications and types of lithium-ion batteries for the energy storage needs of the home, commercial and industrial sectors. Italvolt is building a 300,000 square meter advanced battery plant that is expected to open in 2025 with an annual capacity of 45 GWH.

How big is italvolt's battery plant?

Italvolt is building a 300,000 square meter advanced battery plant that is expected to open in 2025 with an annual capacity of 45 GWH. The plant will meet the needs of electric vehicles, industrial equipment and grid energy storage, and will employ about 3,000 people.

What are lithium-ion cells used for?

Lithium-ion cells are driving Europe's electric mobility revolution, powering a range of vehicles from passenger cars to public transport. We will also produce next-generation cells to serve a wide variety of industrial applications such as construction equipment and logistics.
