

Kyrgyzstan 1GW photovoltaic energy storage project

Overview

Why is Kyrgyzstan launching a 200 MW solar plant?

Kyrgyzstan is blessed with abundant solar resources and we see this 200 MW plant being the first of a number of projects that will support the nation's goals on emissions reductions, while increasing clean energy access and security.".

Does Kyrgyzstan have good solar energy potential?

Ibraev Taalaibek Omukeevich, Minister of Energy of the Kyrgyz Republic, said: "Today, the energy system of the Kyrgyz Republic faces challenges meeting the significant demand for electricity from all categories of consumers with our existing resources. At the same time, Kyrgyzstan has good solar energy potential.

When will Kyrgyz Republic's 200 MW power plant start operation?

The 200 MW plant is scheduled to begin operation by 2026. Ibraev Taalaibek Omukeevich, Minister of Energy of the Kyrgyz Republic, said: "Today, the energy system of the Kyrgyz Republic faces challenges meeting the significant demand for electricity from all categories of consumers with our existing resources.
