

# Lesotho Energy Storage Industrial Park Project Introduction

### **Overview**

### Does Lesotho need electricity?

The country is renowned for an abundant supply of unspoilt and unexploited water resources, capturing approximately 50% of Southern Africa's total catchment run-off, therefore, hydropower contributes to most of its electricity needs . When it comes to energy access, Lesotho is considered one of the lowest in Africa .

Who controls the energy sector in Lesotho?

There are other Ministries or agencies with overarching influence over the energy sector: Ministry of Development Planning; Ministry of Finance; Ministry of Mining; Ministry of Public Works and Transport; Water Commission; and Lesotho Revenue Authority. Lesotho Electricity Corporation (LEC) generates, transmits, and distributes electricity.

What is Lesotho solar energy society?

Lesotho Solar Energy Society (LeSES) acts as a platform for the industry and clean energy expert groups to exchange information and implementation of an industry code of practice. Hlotse, Leribe, Lesotho. Decentralized renewable energy production (biogas and solar) and energy saving technologies (stoves), technical training.

Where will Lesotho's first wind farm be built?

As part of this project, manufacturing facilities will be built in Lesotho and South Africa. The project involves the development of 42-turbine Letseng wind farm and has been approved by the Lesotho government. Lesotho's first 25-35MW wind facility will be located near the diamond mine of Letseng La Terai in the highlands of Lesotho.

Where do Lesotho's oil prodcuts come from?

All Lesotho's imported oil prodcuts come from South Africa, with three muli-

national companies operating in Lesotho in that field, as they import and store the products in bulk storage facilities before they redistribute them through the country .

Who regulates urban water and sewerage services in Lesotho?

In 2007 the Government decided that the Lesotho Electricity Authority (LEA) should be transformed to be a multi-sector regulatory body assuming additional powers to regulate urban water and sewerage services in the country. LEWA officially started regulating both electricity and urban water and sewerage services sector on May, 2013.
