

Lesotho base station power supply manufacturer

Overview

What is the electricity supply industry in Lesotho?

The electricity supply industry in Lesotho is dominated by two state owned entities, namely the Lesotho Electricity Company (LEC), which is the monopoly transmitter, distributor and supplier of electricity, and the Lesotho Highlands Development Authority (LHDA), which is the main generator of electricity through its 'Muela Hydro Power Station.

Who is responsible for the operation and maintenance of Lesotho electricity generation company?

The Lesotho Electricity Generation Company, as the operator of the project, will take over the operation and maintenance of the project after the completion of the project. At that time, the contractor plans to train the engineers of LEGCO in operation and maintenance so that they can be competent for the work.

How much electricity does Lesotho generate?

Lesotho currently generates electricity through the Muela Hydro Power Station which only provides 72MW and this is not enough to meet the country's base load estimated at 160MW. The situation is even worse during peak hours, especially in winter.

Who owns Lesotho electricity generation company (LegCo)?

The Lesotho Electricity Generation Company (LEGCO) is a company wholly owned by the Government of Lesotho. LEGCO was incorporated on the 29 th January 2020 as a public company under the Companies Act of 2011. It commenced its full operations on the 1 st September 2020.

Does Lesotho have a rural electrification programme?

Accelerating the electrification programme in Lesotho is a key policy tenet of Government. LEC is supposed to be responsible for electrification within its

service territory. Outside the LEC service territory, rural electrification efforts are currently managed by the Rural Electrification Unit (REU) of the Department of Energy (DoE).

Lesotho base station power supply manufacturer

[Electronics Laboratory Base Station Manufacturers, Supplier](#)

The Base Station provide all primary needs of the experiment requirements such as power supplies, Potentiometers, switches and data switches, clock generator, data display, speaker ...
