

Lithium battery pack of liquidcooled energy storage cabinet system

Overview

The system is built with long-life cycle lithium iron phosphate batteries, known for their high safety and durability, making it a reliable choice for renewable energy generation, voltage frequency regulation, and energy storage in industrial parks or commercial buildings.

Lithium battery pack of liquid-cooled energy storage cabinet system

<u>CATL 0.5P EnerOne+ Outdoor Liquid Cooling</u> <u>Rack</u>

BMS is used in energy storage system, which can monitor the battery voltage, current, temperature, managing energy absorption and release, thermal ...

Email Contact

Liquid cooling allows for higher pack power and energy density (47kWh), charge & discharge consistency, boosted system reliability & stability. The battery management unit (BMU), ...
