

Mali Wind and Solar Storage

Overview

Nestled in one of Africa's sunniest regions, this \$1.2 billion project isn't just another industrial zone—it's a game-changer for renewable energy storage. By 2030, Mali plans to source 50% of its electricity from solar, but as we all know, the sun doesn't shine 24/7.

Mali Wind and Solar Storage

Solar and Wind Investments in Mali: IRENA

The maximum development potential across the country is estimated at approximately 398.7 GW and 1.25 GW for solar PV and wind projects, respectively, ...
