

Malta Power Station Power Generation BESS

Overview

A project to build two massive battery storage systems that can capture electricity generated from renewable energy sources is now open to bidders. The battery energy storage systems (BESS) will be located in Marsa and Delimara, on Enemalta grounds in both localities.

Malta Power Station Power Generation BESS

<u>EUR47m project to develop massive PV power</u> batteries opened to ...

Battery energy storage systems allow power to be stored and then discharged. This is a sample photo provided by Interconnect Malta. A project to build two massive battery ...
