

Mexico PV Energy Storage Project

Overview

A month after India introduced an energy storage mandate for renewable energy plants and China scrapped its own, Mexico has stepped forward with an ambitious 30% capacity requirement, alongside plans to add a further 574 MW of batteries by 2028.

Mexico PV Energy Storage Project

Energy storage in Mexico: fertile ground for technological ...

Around 20 university research groups were exploring energy storage by 2023 and have achieved notable advances in areas including high-speed and high-capacity batteries; ...
