

# Mobile base station equipment solar equipment

## Overview

---

The communication base station installs solar panels outdoors, and adds MPPT solar controllers and other equipment in the computer room. The power generated by solar energy is used by the DC load of the base station computer room, and the insufficient power is supplemented by energy storage devices.

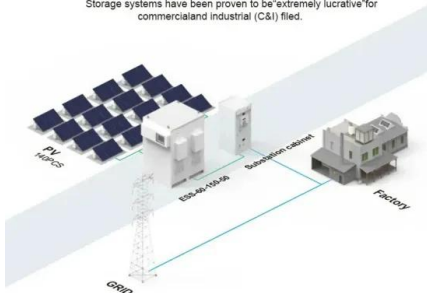

## Mobile base station equipment solar equipment

---

### BASIC APPLICATION

Storage systems have been proven to be extremely lucrative for commercial and industrial (C&I) fields.

### Smart BaseStation

Designed for operating low power AC or DC equipment, the system is ready-to-go and pre-configured to meet customers' requirements. It provides a complete solar-wind hybrid power ...
